Workers’ Compensation Claims
EnterpriseRx Quick Steps

NOTES:

➢ EnterpriseRx supports processing Workers’ Compensation Claims through online Workers’ Compensation providers.

Processing an online WC claim is similar to billing any other insurance claim. However, some additional information such as Injury Date must be transmitted.

➢ Workers’ Compensation providers that require manual billing will still need to be billed outside of EnterpriseRx.

TIPS:

➢ WC plans can be added on the Third Party tab of the Patient Profile in the same manner as any other third party.

Make sure the appropriate Workers’ Compensation plan has been added to the patient’s profile prior to processing the claim.
